

## Public Utilities Company TI

**Client:** *Public Utilities Company*

**Project location:** *San Diego, California*

**Project Size:** *300 s.f. Ground-Up Food Pavilion and Outdoor Lounge*

**Construction budget:** *\$1.7 Million*

**Services performed:** *Gilliland Construction Management provided construction project management services from start of construction through final punch list and occupancy. This ground-up food pavilion structure included a complete kitchen, outdoor shade pavilion and bocce ball court to service employees located at the corporate headquarters. The exterior of the building was comprised of a state-of-the-art Trespa paneling system and camaru wood wall feature. In addition, the project included the installation of three shade structures with new lighting and audio, new sidewalks and ramps to existing buildings, wood lattice features, concrete seat walls and new, drought-tolerant landscape.*
