

STEM Classroom Building

Client: Cathedral Catholic Highschool

Project location: San Diego, California

Project Size: 5,000 s.f.

Construction budget: \$3 Million

Services performed: Gilliland Construction Management provided full project management services, including management of the design, permitting, and construction of this project. This was a new ground-up facility located near the existing football stadium and visitor grandstands. The new building contained a new Robotics Lab, Computer Lab and Testing/Practice Facility. The project also incorporated new restrooms and a Visitor's snack bar for the visitor's side of the football field.
